OPTIONAL: DECLARING VENDOR ATTRIBUTES

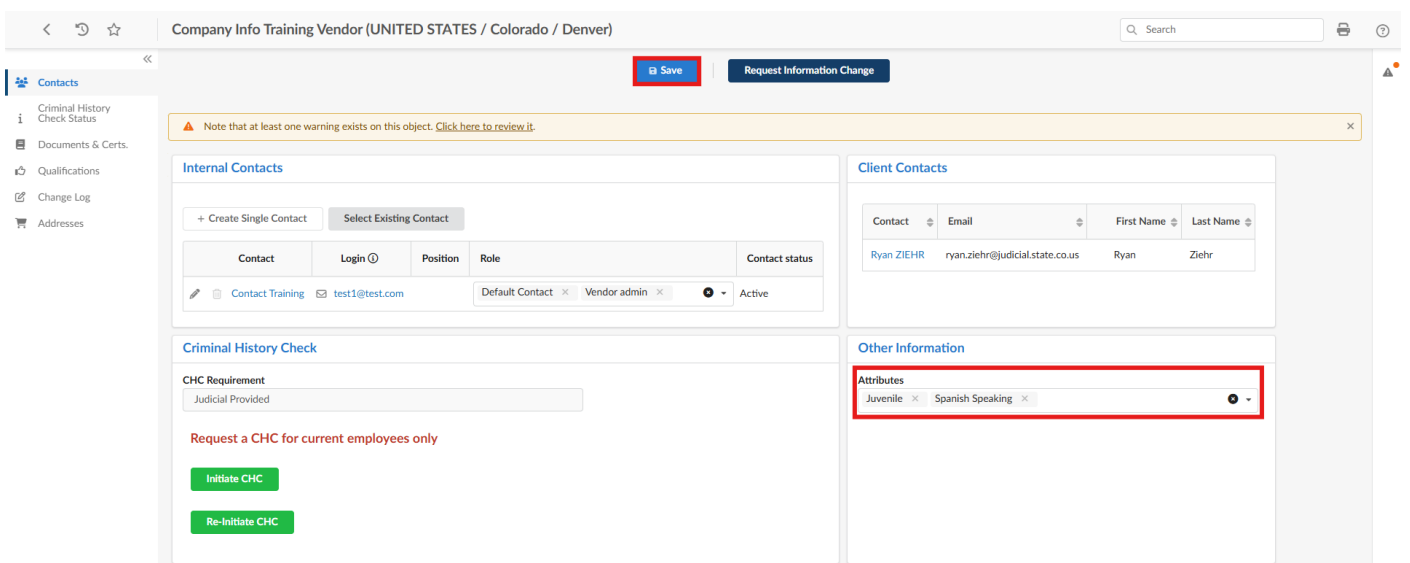

Vendor Attributes are quick tags that showcase what your organization offers—like Medicaid eligibility, languages, service delivery formats, and populations served—so Judicial users can easily find the right fit. Add attributes at the organization or location level in Forum to accurately highlight what each site provides.

ADDING ATTRIBUTES

Attributes can be added from the Contacts page of your vendor record. Select one or more attributes from the Attributes dropdown in the Other Information section.

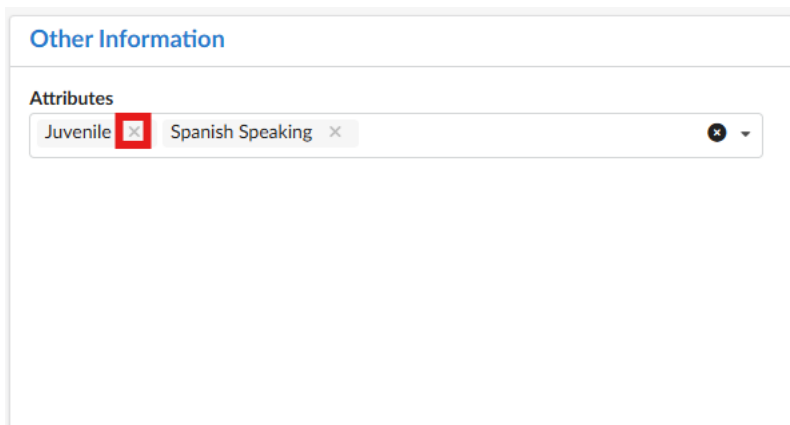

After you have selected your attributes click Save.

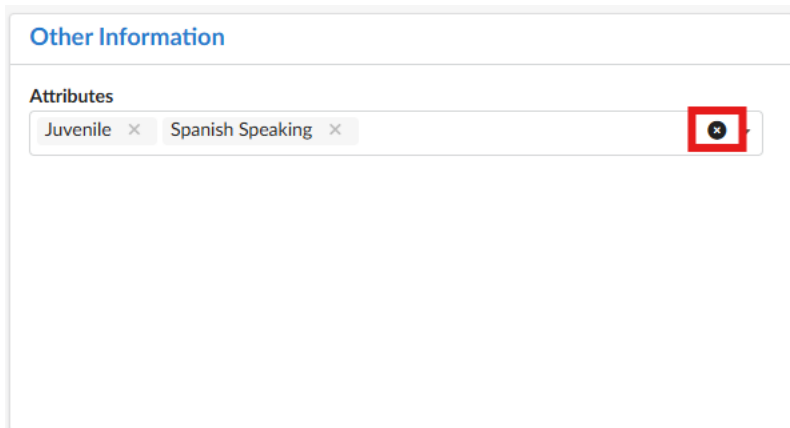

The selected attributes will remain in the dropdown. You do not need to use the Request Information Change option to update your attributes list.

REMOVING ATTRIBUTES

Attributes that were previously selected can be removed if they were added by mistake or are no longer applicable. To remove a single attribute, click the X icon to the right of the attribute's name.

All attributes can be removed at once by clicking the X icon in the dropdown.

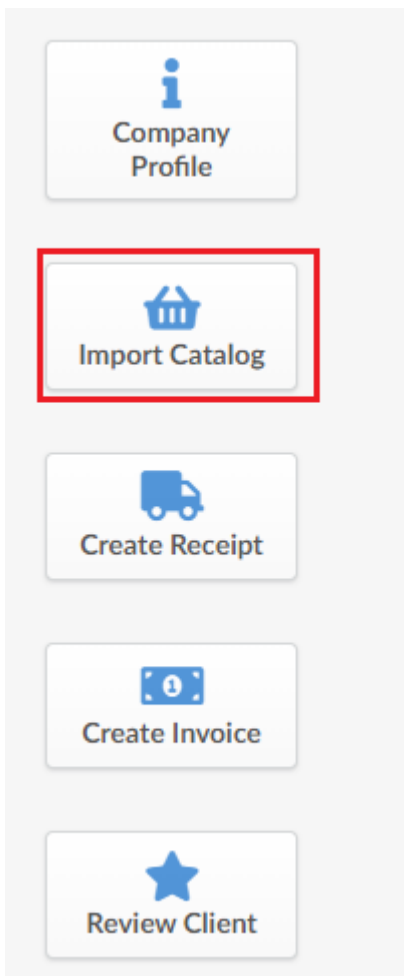

After removing one or more attributes click Save.

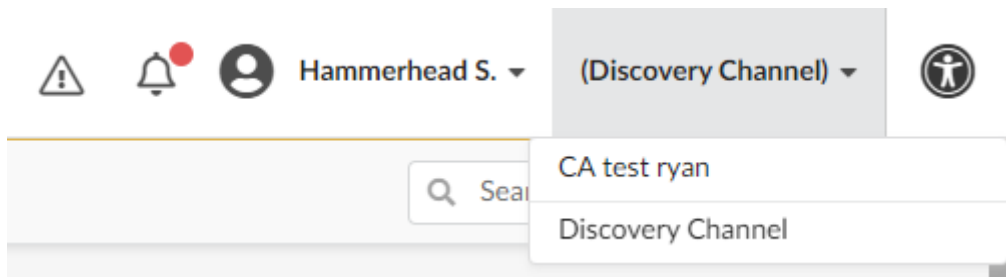

LOADING YOUR CATALOG

From the Home Page, click the **Import Catalog** link.

MANAGING MULTIPLE LOCATIONS

In Forum, vendors are identified by their distinct physical location. Each location will have a distinct Forum Vendor ID. If you are a contact for multiple locations, you will see them in a drop down in the upper right corner of the screen. Select the location you wish to manage from the list.

NOTE: You must be assigned the Vendor Admin role to manage multiple locations.
