In this spreadsheet, parties can enter property and their values to help determine which proportion of the marital estate should go to each party. In re Marriage of

Property	Reference	Titled	Net Value	Separate	Wife	Husband
Real Property	Reference	muou	Het Fatae	oopulate	mie	massana
nearroperty						
Bank Accounts/Cash on Hand						
Ballk Accounts/ Cash on Hallu						
Unsecured Debts						
Investments						
Retirement Funds						
Business Interests						
Total Assets - Debts						
Difference between Parties =						
Equalization Payment =			1			
		1				

End of Spreadsheet

This document is a fillable form. Parties can enter their property in the left hand column labeled "Property" under its respective category. "Reference": refers to the source of the property or its purported value.

"Titled": is who holds the title for the property (W, H, or J).

"Net Value": is the value of the property, net of encumbrances.

"Separate": is for listing property the party contends is not included in the marital estate.

If the property is to go to Wife (or relevant spouse), its value should be listed in the column labeled "Wife." If the property is to go to Husband (or relevant spouse), its value should be listed in the column labeled "Husband."

The total proportion for each spouse should be calculated in the respective column in the row "Total Assets - Debts", and the difference between those values should be listed below in the box "Difference between Parties."

The suggested payment between spouses if their portion of the marital estate is unequal can then be entered in the box "Equalization Payment."

If you need any assistance with filling out or reading this form, please contact 08CourtResourceCenter@judicial.state.co.us or 08SelfHelp@judicial.state.co.us, or call (970) 494-3581.
