Description**Description**

Denver7 request the ability to have a video camera in the courtroom to record video and audio. We would also like to request the ability to feed our signal out to other stations via a small portable live backpack. If a live signal is not acceptable, we would feed to other stations after the hearing concludes via our shared pool line.

If a camera in the courtroom is not acceptable to the Court, we would like to make a second request to record the Court's video livestream.
