8. I just filed a new case and must serve the other party. What is this and how do I do it?

When you file a new case or you request an emergency motion, you may be required to process serve the other party. Process service is a legal procedure to formally provide court documents to the other parties of the case. This is done by a neutral 3rd party, not involved in the case. You can hire the local Sheriff, a private process server, or have someone over the age of 18 perform service. More information about process service can be found here: <https://www.coloradojudicial.gov/self-help-service-process>.

9. Can service be waived?

Generally, service cannot be waived. However, in family law cases, you can request alternative service methods by filing a motion requesting publication, certified mail, or consolidated notice. Before requesting, you must try to find the other party before making this request. There are restrictions on alternative service methods and may stop the Court from deciding: Division of Property, Lawyer's fees, and Spousal or Child Support. For more information, you can review JDF 1300 here: <https://www.coloradojudicial.gov/self-help-forms>.

10. Certificate of service is on the bottom or on the last page. What is this?

A certificate of service is informing the Court how you provided a copy of your filing to all other parties. You will indicate the date and method you delivered a copy such as hand delivery, mailing, emailing, faxing, or by e-filing. E-filing can only be selected if you use the e-filing system to upload your filing and serve the other party. If you do not have an e-filing account, or are filing in person or by mail, e-filing is not an appropriate option.
